Perfect Bleach® Office+

Whitening gel for discoloured teeth

35 %
H₂O₂

auto
mix

Indications

Perfect Bleach Office+ is suited for whitening individual or multiple discoloured, vital or devitalised teeth. The whitening success depends on the natural tooth shade as well as the intensity and cause of the discolouration. It is possible to whiten discolourations of organic origin, which generally have the following causes:

- discolouration as a result of traumata
- discolouration caused by medication (e.g. tetracycline)

Discolourations of inorganic origin, such as components of amalgam (silver), are not whitened, nor are restorations

Advantages

- 35 % hydrogen peroxide concentration for safe and fast whitening of discolourations
- Good contrast to the tooth and LC Dam due to red coloured material
- Can be used for both internal and external whitening
- Perfect Bleach Office+ in the convenient QuickMix syringe
 - only the amount of gel needed is activated
 - no mixing errors and the gel is always fresh
- No painful heat-loading from light-curing the gingiva protection

- REF 1672 Set QuickMix syringe 2 × 4 ml, LC Dam syringe 2 × 2 g, accessories
- REF 1673 QuickMix syringe 4 ml, accessories
- REF 1655 LC Dam syringe 2 g, accessories
- REF 2194 Mixing tips type 14, 50 pcs.
- REF 2195 Mixing tips type 15 (with intraoral tips type 1), 50 pcs.
- REF 2146 Application cannulae type 41, 100 pcs.
